WNL Easyjoint

**QUICK AND SEALANT
FREE, ALL-WEATHER
MOUNTING**

SANDWICH ENCLOSURE WITH UNIQUE WATERTIGHT JOINT FOR ROOF PANELS

For a durable wind and watertight sandwich enclosure, the joint of the sandwich panels is crucial.

WNL Easyjoint is a rigid and durable solution which can be mounted easily.

- **LOWER MOUNTING COSTS**
- **WATERTIGHT JOINT**
- **SAFETY DRAINAGE CHANNEL**
- **SEALANT FREE**
- **MINIMUM 10 YEARS GUARANTEE**

INNOVATION

Together with SAB, WNL has developed a unique joint which guarantees a perfect, simple and sealant free coupling.

During production, these joints are provided with a rubber seal and a safety drainage channel.

NEWLY DESIGNED JOINT

Available in 40, 60, 80 mm sandwich panel with high insulation

ADVANTAGES

EASYJOINT

FOR BUILDERS

- Easy mounting
- Immediately watertight
- Sealant free, so not dependent on temperature and humidity
- Less critical to install
- Savings on materials
- Low maintenance
- Minimum 10-year guarantee
- Extensive advice and support by WNL

**BUILD BETTER,
BUILD FASTER**

FOR GROWERS

- Excellent insulation
- Durable investment
- Large range of colours and materials
- Long lifespan
- Low maintenance
- Minimum 10-year guarantee

**SAFE PRODUCTION,
STRONG INVESTMENT**

ABOUT WNL

WNL offers innovative and high-quality insulation systems for roof cladding, gable cladding and sheet piling for buildings in the horticultural sector and others.

Our sandwich panels have excellent insulation properties and can be applied in all environments and climates.

WNL provides comprehensive service and support during project development.

We offer knowledge and complete solutions which perfectly match your project.

SAB-PROFIEL

COLORCOAT HPS200 ULTRA®

Colorcoat HPS200Ultra® is a super durable pre-finished steel product from SAB-profiel – a subsidiary of Tata Steel. It offers exceptional and proven weather resistance and long-term colour and gloss retention. The ultimate pre-finished steel is guaranteed for 40 years.

COLORCOAT PRISMA®

Colorcoat Prisma®, pre-coated steel, is the best combination of aesthetic quality, long-term performance, and durability. The new Prisma, as the only coating, even has a 20 year colour guarantee for all standard colours. The thickness and structure of the coating make Prisma ideal for use on walls and roofs.
